The legal regime of martial law has been introduced on territory of Ukraine by Law of Ukraine “About the approval of the “Decree of the President of Ukraine "On the imposition of martial law in Ukraine”” No. 2102-IX of February 24, 2022 and Decree of President of Ukraine "On the imposition of martial law in Ukraine" No. 64/203 of February 24, 2022.

In accordance with the Regulation on The Ministry of Healthcare of Ukraine approved by the resolution of the Cabinet of Ministers No. 267 of 25.03.2015 (as amended by resolution of the Cabinet of Ministers No. 90 of 24.01.2020), the Ministry of Healthcare is the main body in the system of central executive authorities, which ensures the formation and implementation of state health care policy, in particular in the field of providing the population with quality, effective and safe medicines.

In view of the introduction of martial law and necessity of providing for population and, first of all, combatants – defenders of Ukraine, with vital medicines, the Ministry of Healthcare of Ukraine does not object to the import of unregistered medicines in foreign packaging into the customs territory of Ukraine to provide healthcare facilities with the necessary drugs.
